Project Id (column1 of http://goo.gl/gmoYrk): 2

Project Name (column2 of http://goo.gl/gmoYrk): CMS Module

Member	Last name	First name	github id	email
1	Lawande	Aniket	anlawande	aglawand@ncsu.edu
2	Shety	Anisha	anishashetty	aashetty@ncsu.edu
3	Roychoudhury	Ritwika	rroycho	rroycho@ncsu.edu
4	Trivedi	Prashant	ptrived	ptrived@ncsu.edu
5	Chowdary Kollu	Sohan	SohanK	skollu@ncsu.edu

In the following, column 0 is your score column 1 will come from the tutor

0	1	Score	What
1		1	From http://goo.gl/gmoYrk, there is a link to the report readme.
1		1	Has section "1.Collection" describing collection tricks
1		1	Has section "2.Anonymization" describing anonymization tricks
1		1	Has section "3.Tables" describing tricks for making your tables
1		1	Has section "Data" describing how much data was collected
1		1	Has section "Data samples" : snippets of collected data, and Github links to the real stuff
3		3	Has section "Feature detection": 10-20 detectors, described, plus links to code
2		2	Has section "Feature detection results": what found when feature detectors applied
3		3	Has section "Bad smells detector": scripts used, described, plus links to code

2		2	Has section "Bad smells results": what found when the bad smell detector was applied
2		2	Has section "Early warning": scripts used, described, plus links to code
4		4	Has section "Early warning results": what found when the early warning detector was applied

Final score: round(score*ticks/1.5)); so max = 15 (out of 10)
